1. about us

SINAPI was established in 2006 to design & manufacture Medical Devices with clinical benefit. To date our products are used in over 40 countries. SINAPI is an owner managed business that employs 250 people, of which >80% are female. We maintain ISO 13485 & ISO 11135, manufacture according to FDA's GMP standards and have transitioned to MDR.

Sinapi is committed to a sustainable future. See our [Carbon Reduction Plan](#). Sinapi partners with BMGF, GCC Canada, J&J Foundation and SAMRC to help achieve UN SDG 3, with a focus on maternal and child health.

our track record
